

Fluorescent Lighting and Mercury Thermostats NC Landfill Ban ~ Effective July 1, 2011

ATTENTION CONTRACTORS

North Carolina Department of Environment and Natural Resources

House Bill 1766

Main provisions include:

~Fluorescent lighting and mercury thermostats are banned from disposal in unlined construction and demolition landfills (and any other landfill that is unlined).

~All contractors or the owner of a building or structure to be demolished shall remove all fluorescent lighting and mercury thermostats prior to demolition.

~State agencies and local governments are required to establish a program to recycle fluorescent lighting and mercury thermostats for their facilities.

Entities affected include: State Agencies, Community Colleges, Universities, Public Schools or any political subdivision using state funding for the construction and operation of public buildings.

This law became effective July 1, 2011.

Contact the N.C. Division of Waste Management at (919) 508-8546 with questions related to the regulatory status of fluorescent lamps.

For more information please visit the NCDENR website:

p2pays.org/bannedmaterials/index.asp

NCDENR strongly encourages recycling all lamps containing mercury.
